

FINNGEN

FinnGen ecosystem collaboration models

- A. Promotional collaboration (marketing)
- B. Sale of company products to FinnGen (subcontracting)
- C. Research partnership (Tier 2)
- D. New/complementary R&D&I projects with FinnGen-participating biobanks (Add-on)

FinnGen add-on project opportunity

FinnGen add-on project concept ideas

FINNGEN

- Detailed drug discovery projects with more comprehensive phenotype data sets
- Subpopulation trials for phases 1-3 (with patient recall)
- FinnGen + omics analytics using plasma/serum samples
- FinnGen + EHR data analytics with time series formation
- Real-world evidence studies on (pharmaco)genetic testing
- Decision support tool validation with real-life data
- Diagnostic tool development with samples and data
- Personalized health service concept testing
